

Andrew Garcia Mosquera

Software Engineer · Founder of Lyroo

Armenia, Quindio, Colombia · contact@andrewgarcia.dev · +57 320 657 4470 · andrewgarcia.dev · linkedin.com/in/andrewgarciam · github.com/DrewGGM

SUMMARY

Software engineer and founder of Lyroo S.A.S, a Colombian startup building LyrooPOS — an offline-first point of sale with an embedded DIAN electronic invoicing engine. Specialized in backend development and application architecture (Java/Spring Boot, Go, hexagonal architecture). Currently contributing to core banking systems at COFINCAFE while leading product and engineering at Lyroo. Strong foundation in QA, clean code and agile methodologies.

EXPERIENCE

Development Intern — FINANCIERA COFINCAFE - Cooperativa de Ahorro y Credito

Jan 2026 – Present

Armenia, Quindio, Colombia

Assisting in the development and support of the core banking system using Apache Fineract and Mifos.

- Helping implement financial products and configure banking modules
- Resolving issues and contributing to system improvements
- Working with Apache Fineract and Mifos open-source banking platform

Founder & Lead Software Engineer — Lyroo S.A.S

May 2025 – Present

Armenia, Quindio, Colombia · Remote-first

Founded Lyroo, a software startup for Colombian SMBs: LyrooPOS — a desktop point of sale with an embedded DIAN electronic invoicing engine (offline-first, unlimited invoicing with no per-document fees) — and Lyroo Build, a boutique custom software studio.

- Built LyrooPOS end-to-end: Go (Wails) backend with 31+ services + React 18 frontend over PostgreSQL — v1.2 in production, first active customers since July 2026
- Engineered an embedded DIAN e-invoicing core (UBL 2.1) — unlimited electronic invoicing without third-party APIs or per-folio costs
- Designed offline-first architecture: local data with AES-256 encrypted cloud backups, real-time kitchen/waiter apps via WebSocket, Bold payment terminals
- Lead product, engineering, sales and customer onboarding, including DIAN digital-certificate management for clients

PROJECTS

Lyroo — Startup (POS + DIAN E-Invoicing)

lyroo.com.co

My startup: software for Colombian SMBs. LyrooPOS is an offline-first desktop point of sale with an embedded DIAN electronic invoicing engine (UBL 2.1) — unlimited invoicing with no per-document fees, encrypted cloud backups, real-time kitchen & waiter apps, and human WhatsApp support. Lyroo Build is our boutique custom software studio.

Stack: Go, Wails, React, PostgreSQL, Next.js, DIAN UBL 2.1

Restaurant POS System

pos-system.v1.andrewgarcia.dev · [gh:DrewGGM/demo-pos-system](https://github.com/DrewGGM/demo-pos-system)

Complete point-of-sale desktop application for Colombian restaurants. Features touchscreen-optimized sales, real-time kitchen/waiter apps, DIAN electronic invoicing, Bold payment terminals, inventory control with auto-deduction, split billing, and AI automation via MCP.

Stack: Go, React, TypeScript, PostgreSQL, Material-UI, WebSocket

ai-content-bot-demo.andrewgarcia.dev · gh:DrewGGM/ai-content-bot

AI Content Bot
Agent-agnostic AI content factory for social media. Generates reels, carousels, posts and code-rendered motion videos for any brand using ANY coding agent (Claude Code, Codex, Gemini CLI, Kimi, Cursor...) or LLM API (OpenAI-compatible, OpenRouter, Ollama). Features AI visual QA, a human-in-the-loop approval panel (PWA), smart content planning from history, and one-click publishing to Meta.

Stack: Node.js, TypeScript, AI Agents, Remotion, FFmpeg, Cloudflare D1/R2

SKILLS

Languages: Java, Python, Go, SQL

Frameworks & Libraries: Spring Boot, Angular, Selenium

DevOps & Tools: Git, Docker, Scrum

Software Engineering: OOP, Design Patterns, Data Structures, Clean Code, Hexagonal Architecture, Microservices

Areas of Expertise: Backend & Frontend Development, Software Architecture, QA, Usability

EDUCATION

Bachelor's Degree — Software Engineering
Institucion Universitaria EAM · Feb 2023 – Present

Bootcamp — QA Engineer
TripleTen LatAm · Dec 2024 – Jun 2025

Course — Web Developer
Next U · Feb 2022 – Feb 2022

LANGUAGES

Spanish: Native

English: Professional

CERTIFICATIONS

Spring Boot: Backend Enterprise Professional Certificate — Dev Senior Code Dec 2025

QA Engineer Bootcamp — TripleTen LatAm Dec 2024 - Jun 2025

Scrum Fundamentals Certified (SFC) — VMEdU inc Feb 2024

Desarrollo Web y UX/UI — Next U Feb 2022

DevOps, APIs and Microservices Architecture Fundamentals — Udemy Feb 2025

Angular — Edutin Academy Mar 2025

Spring Framework — Udemy May 2025
